**AVO:** Your eyes are like fingerprints...

**AVO:** they can identify you.

**AVO:** They can also help your eye doctor identify early signs of heart disease.

**AVO:** Because they're the only part of the body that allows eye doctors to look directly

**AVO:** at blood vessels that

**AVO:** offer clues and warnings signs

**AVO:** to heart disease,

**AVO:** BEFORE symptoms occur.

**AVO:** Now think about

**AVO:** this...

**AVO:** More than 1 in 3 Americans have heart disease, many may not even know it.

**AVO:** Shouldn't you see your eye doctor

**AVO:** for a complete eye exam yearly?

**AVO:** Go to think about your eyes dot com to learn more and for a list of local eye doctors.

**AVO:** You could identify more than eye problems.

**MUSIC UNDER—FIRST NOTES ARE LIKE HEARTBEATS**

**AVO:** There's another way to SEE

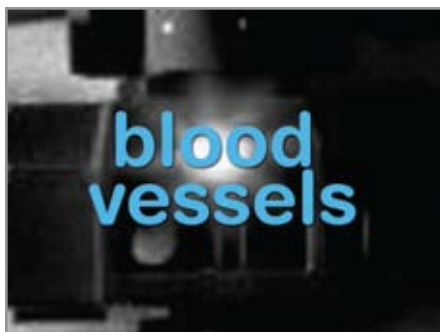

**AVO:** how your heart is doing—

**AVO:** just let an eye doctor look in your eyes.

**AVO:** A complete eye exam can do a lot more than check your vision.

**AVO:** It also lets your eye doctor check blood vessels for clues and warnings of heart disease

**AVO:** BEFORE other symptoms occur.

**AVO:** Now think about

**AVO:** this...

**AVO:** More than 1 in 3 Americans have heart disease and many don't even know it,

**AVO:** yet early detection can save lives.

**AVO:** Shouldn't you see your eye doctor yearly?

**MUSIC UNDER**

**AVO:** Of all the thousands of parts of the human body...

**AVO:** Only one lets a doctor actually

**AVO:** see what's going on inside—

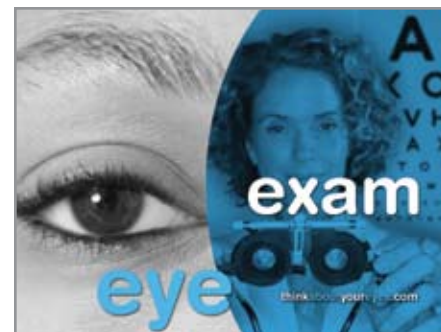

**AVO:** it's your eyes.

**AVO:** Now think about

**AVO:** this...

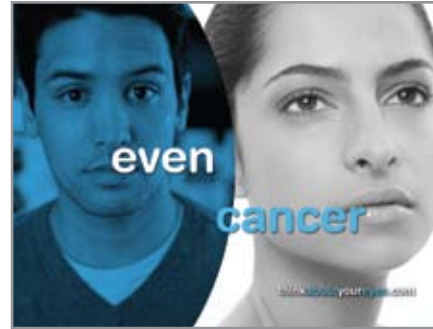

**AVO:** A complete eye exam can be an early detector of serious health problems like

**AVO:** High blood pressure, heart disease,

**AVO:** MS, diabetes,

**AVO:** even some forms of cancer.

**AVO:** Shouldn't you see your eye doctor yearly?

**AVO:** Go to think about your eyes dot com to learn more and for a list of local eye doctors.

**AVO:** It could help save more than your vision...it could help save your life.
